

## NIDARSHAN V.

📍 Coimbatore, Tamil Nadu | 📞 93423 97580 | ✉ imhavocns@gmail.com

[my-portfolio](#)

### Career Objective

A highly dedicated and creative Front-End Developer with a solid foundation in cybersecurity and real-time systems. I am committed to delivering quality work, learning continuously, and solving problems with innovation. Known for my reliability, professionalism, and the ability to bring unique ideas to life, both in code and in action.

As an official Indian crew member of Havoc Brothers, I proudly represent a culture of teamwork, loyalty, and performance always striving to exceed expectations.

### Education

Diploma in Information Technology  
Ramakrishna Mission Vidyalaya, Coimbatore  
Expected 2025 | Aggregate: 85%

### Skills & Strengths

- HTML, CSS, JavaScript (Clean UI & Responsive Design)
- UI/UX Design Thinking
- Cybersecurity Enthusiast (Kali Linux, Metasploit, Awareness Tools)
- Adobe After Effects, Photoshop (Branding, Promo Design)
- Esports Tournament Management (Strategic Planning to Execution)
- Critical Thinking & Fast Problem Solving
- Excellent Teamwork, Patience, and Communication
- Consistent learner, adaptive and dependable

### Projects & Contributions

- **Multilingual Code Compiler**  
Designed an innovative tool that lets users code in their mother tongue, converting it into Python. Makes tech accessible to more people — built to inspire.
- **Esports Website for Real-Time Events**  
Built a full-stack website for an esports brand to showcase their legacy and enable easy, real-time registration and team handling.

- **Real-Time Sign Language Recognition (Python)**

A project driven by purpose — translates sign language to text using OpenCV, aiming to make communication more inclusive and barrier-free.

- **BGMI Tournament Organizer**

Handled end-to-end execution of ₹1L+ prize pool tournaments. Created trust among gaming communities with fair play, transparency, and smooth management.

## Languages

- Tamil – Native speaker
- English – Fluent communicator

## Values & Vision

- I believe in earning trust through consistent work, not just words.
- I always take full ownership of my work, no matter the scale.
- I aim to build tools, platforms, and systems that solve real-world problems.
- I'm not just a developer — I'm a dependable collaborator.
